Energy Performance Certificate

Dwelling type: Date of assessment: Mid-terrace house 13 January 2009 14 January 2009

Date of certificate:
Reference number:

8400-6475-7620-2196-3913

Total floor area:

113 m²

This home's performance is rated in terms of energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO_2) emissions.

Energy Efficiency Rating			
		Current	Potential
Very energy efficient - lower running costs [92 plus] A			
(81-91)			
(69-80) C			(D) (T)
(55-68)		34	67
(39-54)			
(2139)			
13.219	Service Company		
Not energy efficient - higher running costs			
England & Wales		U Directive 002/91/EC	

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

	Current	Potentia
Very environmentally friendly - lower CO₂ emission	sions	
(92 plus) (\(\triangle \triangle \)		
(81-91)		(53)
(69-80)		
(55-68)	200.000.000.000	
(39-54)	52	
(21-38)		
(1-20)		
Not environmentally friendly - higher CO₂ emiss	ions	

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO_2) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential	
Energy use	333 kWh/m² per year	329 kWh/m² per year	
Carbon dioxide emissions	5.7 tonnes per year	5.6 tonnes per year	
Lighting	£118 per year	£59 per year £430 per year £148 per year	
Heating	£415 per year		
Hot water	£148 per year		

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

The address and energy rating of the dwelling in this EPC may be given to EST to provide information on financial help for improving its energy performance.
