Energy performance certificate (EPC)			
High Stott Park Cottage High Stott Park ULVERSTON LA12 8AY	Energy rating	Valid until: <b>16 August 2033</b> Certificate number: <b>8837-9428-5200-0566-9292</b>	
Property type	Semi-detached house		
Total floor area		178 square metres	

## Rules on letting this property

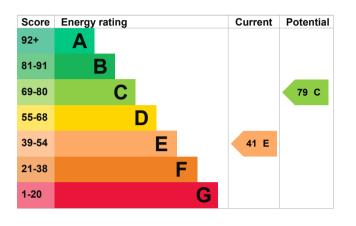

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

# Energy rating and score

This property's current energy rating is E. It has the potential to be C.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Sandstone or limestone, as built, no insulation (assumed)	Poor
Roof	Pitched, 100 mm loft insulation	Average
Roof	Pitched, 250 mm loft insulation	Good
Window	Some double glazing	Very poor
Main heating	Boiler and radiators, oil	Poor
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Poor
Lighting	Low energy lighting in 47% of fixed outlets	Good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, dual fuel (mineral and wood)	N/A

### Primary energy use

The primary energy use for this property per year is 269 kilowatt hours per square metre (kWh/m2).

### Additional information

Additional information about this property:

• Stone walls present, not insulated

## How this affects your energy bills

An average household would need to spend £3,450 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £1,796 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 25,487 kWh per year for heating
- 2,789 kWh per year for hot water

Impact on the envir	onment	This property produces	12.0 tonnes of CO2
This property's current envi rating is F. It has the potent	•	This property's potential production	4.6 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment. <b>Carbon emissions</b>		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
An average household produces	6 tonnes of CO2	These ratings are based of average occupancy and er living at the property may u of energy.	nergy use. People

## Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£90
2. Internal or external wall insulation	£4,000 - £14,000	£730
3. Floor insulation (solid floor)	£4,000 - £6,000	£127
4. Low energy lighting	£40	£94
5. Condensing boiler	£2,200 - £3,000	£452

Step	Typical installation cost	Typical yearly saving
6. Solar water heating	£4,000 - £6,000	£71
7. Replace single glazed windows with low-E double glazed windows	£3,300 - £6,500	£232
8. Solar photovoltaic panels	£3,500 - £5,500	£667

#### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

#### More ways to save energy

Find ways to save energy in your home by visiting www.gov.uk/improve-energy-efficiency.

## Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Amber Kitching
Telephone	01189770690
Email	epc@nichecom.co.uk

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.
