

Energy performance certificate (EPC)

Flat 1 Brathay Fell Clappersgate AMBLESIDE LA22 9NE	Energy rating G	Valid until: 5 December 2028
		Certificate number: 8498-7822-6809-0156-1902

Property type Ground-floor flat

Total floor area 91 square metres

Rules on letting this property

! You may not be able to let this property

This property has an energy rating of G. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance) (<https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance>).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

Energy rating and score

This property's energy rating is G. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

Score	Energy rating	Current	Potential
92+	A		
81-91	B		
69-80	C		69 C
55-68	D		
39-54	E		
21-38	F		
1-20	G	19 G	

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Granite or whinstone, as built, no insulation (assumed)	Very poor
Window	Partial double glazing	Poor
Main heating	Room heaters, electric	Very poor
Main heating control	Programmer and appliance thermostats	Good
Hot water	Electric immersion, standard tariff	Very poor
Lighting	Low energy lighting in 42% of fixed outlets	Average
Roof	(another dwelling above)	N/A
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	Room heaters, wood logs	N/A

Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO₂. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Biomass secondary heating

Primary energy use

The primary energy use for this property per year is 636 kilowatt hours per square metre (kWh/m²).

► [About primary energy use](#)

Additional information

Additional information about this property:

- Stone walls present, not insulated

How this affects your energy bills

An average household would need to spend **£3,061 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,923 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2018** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 17,371 kWh per year for heating
- 2,367 kWh per year for hot water

Impact on the environment

This property’s environmental impact rating is F. It has the potential to be D.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces	6 tonnes of CO2
This property produces	8.9 tonnes of CO2
This property’s potential production	5.3 tonnes of CO2

You could improve this property’s CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

► [Do I need to follow these steps in order?](#)

Step 1: Internal or external wall insulation

Typical installation cost £4,000 - £14,000

Typical yearly saving £858

Potential rating after completing step 1

37 F

Step 2: Floor insulation (suspended floor)

Typical installation cost £800 - £1,200

Typical yearly saving £259

Potential rating after completing steps 1 and 2

44 E

Step 3: Hot water cylinder insulation

Add additional 80 mm jacket to hot water cylinder

Typical installation cost £15 - £30

Typical yearly saving £32

Potential rating after completing steps 1 to 3

45 E

Step 4: Draught proofing

Typical installation cost £80 - £120

Typical yearly saving £54

Potential rating after completing steps 1 to 4

46 E

Step 5: Low energy lighting

Typical installation cost £55

Typical yearly saving £22

Potential rating after completing steps 1 to 5

47 E

Step 6: High heat retention storage heaters

Typical installation cost £1,200 - £1,800

Typical yearly saving	£530
-----------------------	------

Potential rating after completing steps 1 to 6
--

64 D

Step 7: Heat recovery system for mixer showers

Typical installation cost	£585 - £725
---------------------------	-------------

Typical yearly saving	£39
-----------------------	-----

Potential rating after completing steps 1 to 7
--

66 D

Step 8: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost	£3,300 - £6,500
---------------------------	-----------------

Typical yearly saving	£129
-----------------------	------

Potential rating after completing steps 1 to 8
--

69 C

Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Peter Ryan
-----------------	------------

Telephone	07968071279
-----------	-------------

Email	info@epc-cumbria.com
-------	--

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Quidos Limited
----------------------	----------------

Assessor's ID	QUID205877
---------------	------------

Telephone	01225 667 570
-----------	---------------

Email	info@quidos.co.uk
-------	--

About this assessment

Assessor's declaration	No related party
Date of assessment	6 December 2018
Date of certificate	6 December 2018
Type of assessment	▶ RdSAP
