# **Energy performance certificate** (EPC)

48 Lancaster Road
CARNFORTH
LA5 9LD

Energy rating
Certificate
number:

Valid until:

2 October 2035

Certificate
number:

Property type	End-terrace house
Total floor area	86 square metres

# Rules on letting this property

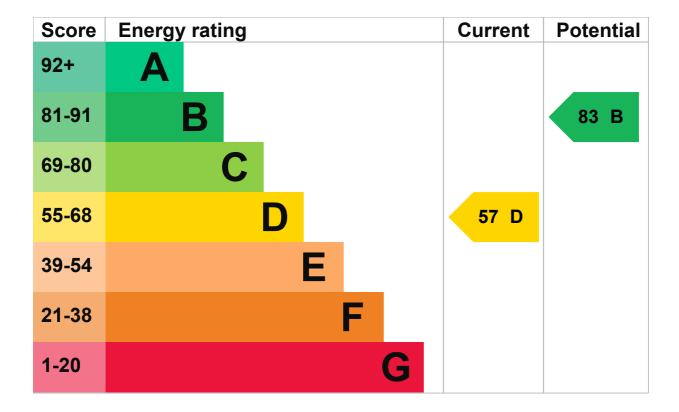

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

# **Energy rating and score**

This property's energy rating is D. It has the potential to be B.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

# Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Sandstone, as built, no insulation (assumed)	Very poor
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 270 mm loft insulation	Very good

Feature	Description	Rating
Roof	Pitched, insulated (assumed)	Average
Window	Fully double glazed	Poor
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, TRVs and bypass	Average
Hot water	From main system	Good
Lighting	Below average lighting efficiency Very	
Floor	To unheated space, no insulation (assumed)	N/A
Floor	To unheated space, insulated	N/A
Floor	Solid, no insulation (assumed)	N/A
Air tightness	(not tested)	N/A
Secondary heating	None	N/A

# Primary energy use

The primary energy use for this property per year is 286 kilowatt hours per square metre (kWh/m2).

About primary energy use

#### **Additional information**

Additional information about this property:

- PV recommended
   When considering the PV installation consider installing PV battery and a PV diverter for water heating.
- Conservation area
   Conservation area
- Cavity fill is recommended
- Dwelling may be exposed to wind-driven rain

# **Smart meters**

This property had **no smart meters** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

Find out how to get a smart meter (https://www.smartenergygb.org/)

# How this affects your energy bills

An average household would need to spend £1,678 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £649 per year if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2025** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### **Heating this property**

Estimated energy needed in this property is:

- 15,169 kWh per year for heating
- 2,205 kWh per year for hot water

# Impact on the environment

This property's environmental impact rating is E. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

#### Carbon emissions

An average household produces	6 tonnes of CO2
This property produces	4.5 tonnes of CO2
This property's potential production	2.4 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Steps you could take to save energy

▶ Do I need to follow these steps in order?

Step	1:	Cavity	wall	insu	lation
OLGD		Javity	vvali	เมเจน	iation

Typical installation cost	£900 - £1,500
Typical yearly saving	£44
Potential rating after completing step 1	58 D

# Step 2: Internal wall insulation

Typical installation cost	£7,500 - £11,000
Typical yearly saving	£397
Potential rating after completing steps 1 and 2	68 D

# Step 3: Floor insulation (suspended floor)

Typical installation cost	£5,000 - £10,000 £75	
Typical yearly saving		
Potential rating after completing steps 1 to 3	70 C	

# Step 4: Low energy lighting

Typical installation cost	£1,110 - £1,295
Typical yearly saving	£83
Potential rating after completing steps 1 to 4	71 C

### **Step 5: Heating controls (room thermostat)**

Typical installation cost	£220 - £250
Typical yearly saving	£48
Potential rating after completing steps 1 to 5	73 C

#### Step 6: Solar photovoltaic panels, 2.5 kWp

Typical installation cost	£8,000 - £10,000
Typical yearly saving	£273
Potential rating after completing steps 1 to 6	83 B

Get detailed recommendations and cost estimates

#### Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

- Insulation: Great British Insulation Scheme
- Heat pumps and biomass boilers: Boiler Upgrade Scheme
- Help from your energy supplier: Energy Company Obligation

# Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Timothy Wood
07800 895 988
tjwoodepc@gmail.com

# Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Quidos Limited
Assessor's ID	QUID200564
Telephone	01225 667 570
Email	info@quidos.co.uk

# **About this assessment**

Assessor's declaration	No related party
Date of assessment	1 October 2025
Date of certificate	3 October 2025
Type of assessment	► <u>RdSAP</u>

# Other certificates for this property
